

FABRICS: VINYL: 10 OZ. PVC VINYL COATED POLYESTER

Our PVC Vinyl Polyester Coated/Laminated fabrics come in different weights from 10 oz. to 40 oz for many different purposes. They are very durable and strong that will work for heavy duty applications as well as the light duty applications. These PVC materials are sealable and weldable that they can be connected together to make a longer or wider length. They do come in different colors shown on the below chart. They are widely used in bags, agricultural covers, truck tarpaulins, tents, dams, gym floors, dock curtains, jumpers, and many other tarpaulins. Please refer to our specification chart shown below.
