

LANDFILL COVERS / ONSITE SERVICES

Rocky Industries manufactures Landfill Cover using Fire Retardant, Woven Polymeric Material; which prevents water infiltration and helps in debris and odor control, and they are seldom used as a soil remediation cover as well. With using Landfill Cover, the owners will not only save cost, and increase the landfill life by eliminating needs for daily soil coverage. The cover is designed and constructed to prevent trash from blowing away, reduce the risk of diseases from animals and insects feeding on wastes), reduce odors, reduce the chance of fire. They can be handled by manpower or own existing equipments.
