

SAND BAGS

Rocky Industries stocks and manufactures variety of sandbags with different specifications, colors, and sizes. They are widely used for construction sites, military bunkers, flood erosion prevention, etc. Our sandbags are made from weather resistant with extra UV treated materials which they will last for a long time. We have different types of sandbags from light duty, medium duty, heavy duty, long-lift duty for your right applications. We provide custom printing service on the sandbags. Our sandbags can come with built-on ties or without the ties. We can make your own custom designed or sized sandbags

POLYPROPYLENE SAND BAGS

Material: Woven polypropylene, 6 mil thick

Color: Yellow, Orange, Green, White

Size: 14"W x 26"L or Any Custom Sizes

Holds: 30 - 50 lbs. (depending on customer preference)

Tight weave to minimize sifting and withstand rough handling. Top is folded and hemmed for easy opening; bottom is folded and double stitched for extra strength. Heavy-duty tie cord can be attached through side walls.

(Maximum life to be realized when stored in dry conditions away from direct sunlight.)

POLYPROPYLENE SAND BAGS

Material: Woven Polypropylene, 12 mil thick

Color: Black

Size: 14.5"W x 26"L or Any Custom Sizes

Holds: 30 - 50 lbs. (depending on customer preference)

Tight weave to minimize sifting and withstand rough handling. Top is folded and hemmed for easy opening; bottom is folded and double stitched for extra strength. Heavy-duty tie cord can be attached through side walls. Thread is UV-stabilized to last 4,000 hours — longest lasting on the market. Average 80-90% original strength retention after testing.

(Maximum life to be realized when stored in dry conditions away from direct sunlight.)

BURLAP SAND BAGS & ACRYLIC SAND BAGS

Material: Burlap or Acrylic

Size: 14"W x 26"L or Any Custom Sizes

Holds: 35 - 50 lbs.

The U.S. Army Corp of Engineers uses burlap sandbags. Burlap bags are biodegradable, making them environmentally friendly. Do not store in sunlight.

Acrylic bags have a life span of 3 to 5 years. Do not store in sunlight.

(Maximum life to be realized when stored in dry conditions away from direct sunlight.)

HEAVY DUTY VINYL SAND BAGS

Material: Woven Polypropylene, 14-20 mil thick

Color: All

Size: 14.5"W x 26"L or Any Custom Sizes

Holds: More than 50 lbs (depending on customer preference)

PVC coated polyester maximizes the hold weight. Top is folded and hemmed for easy opening; bottom is folded and double stitched for extra strength. Heavy-duty tie cord can be attached through side walls. UV-coat to last about 5,000 hours. Average 80% original strength retention.

(Maximum life to be realized when stored in dry conditions away from direct sunlight.)
